

SCENARIO · Chest Pains
PAIR WITH · Consent Form 1

You came into the hospital after experiencing intense chest pains. After a few tests your doctor told you that you have a serious heart condition and you need surgery right away, and even then you may not survive. Your chest hurts and it is hard to breathe. You can't get ahold of any of your family. The doctor is insisting that you get into the operating room right away, and he needs you to read and sign this consent form first.

SCENARIO · Lasik Surgery
PAIR WITH · Consent Form 2

You are sitting in the comfortable out-patient waiting-room of the doctor's office before your Lasik eye surgery, which can radically improve impaired vision. You have researched the procedure, and you've selected your surgeon carefully after reading many patient reviews. You are calm and confident. As you get prepped for the procedure, the doctor gives you this consent form to fill out.

SCENARIO · Baldness
PAIR WITH · Consent Form 3

Your thick, lustrous hair has fallen out over the last few years, which has badly damaged your self-esteem and impacted your social and romantic life. You've tried Rogaine, hair plugs, and baseball caps, with little or no success. But you have recently learned about a promising new clinical trial that may help treat baldness. You have contacted the doctors and are confident that you will be accepted into the study, just as soon as you read and sign this consent form.
